

# **PGI Intraop Installation Guide**

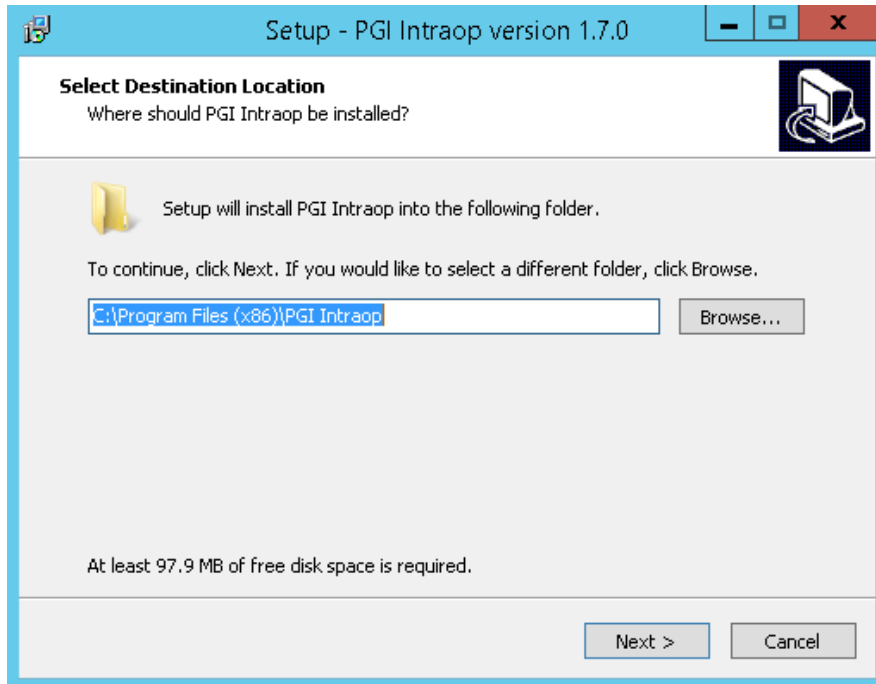

*Organization : Infosys*

*Version : 1.7.0*

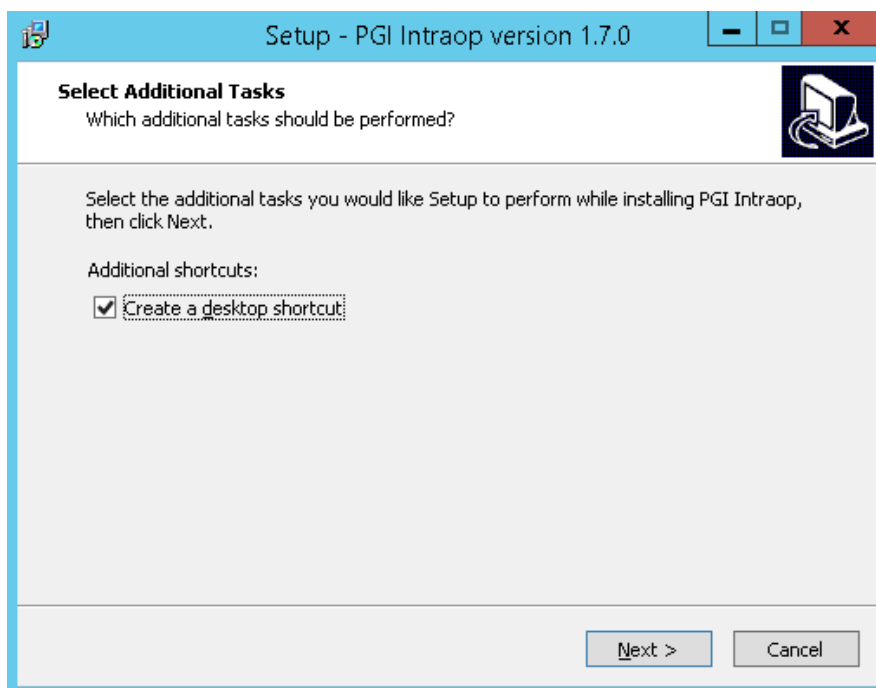

*Created By : Rohit\_sharma41*

Please follow below mentioned steps to install PGI Intraop application:

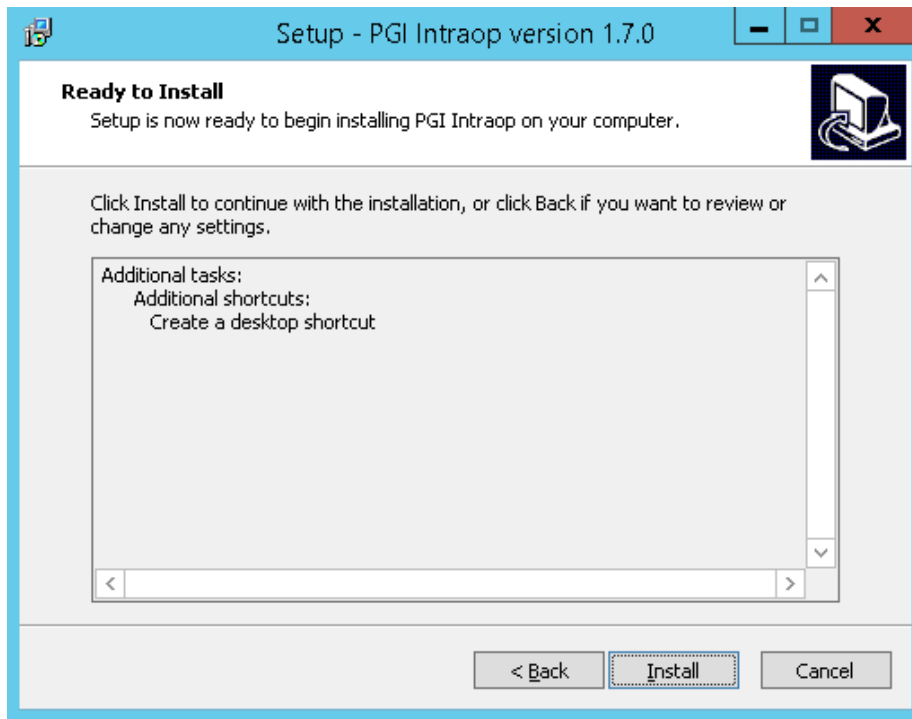

- 1) Click on setup file and a setup window popup.
- 2) Select directory where you wish to install the setup.

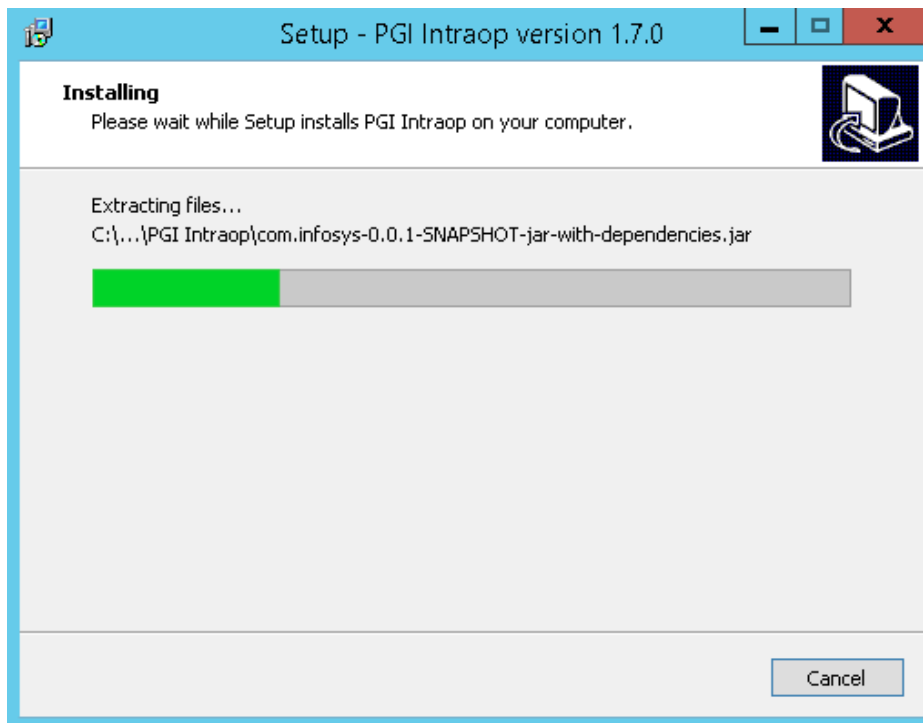

- 3) Make sure **Create a desktop shortcut** option is checked and click Next.

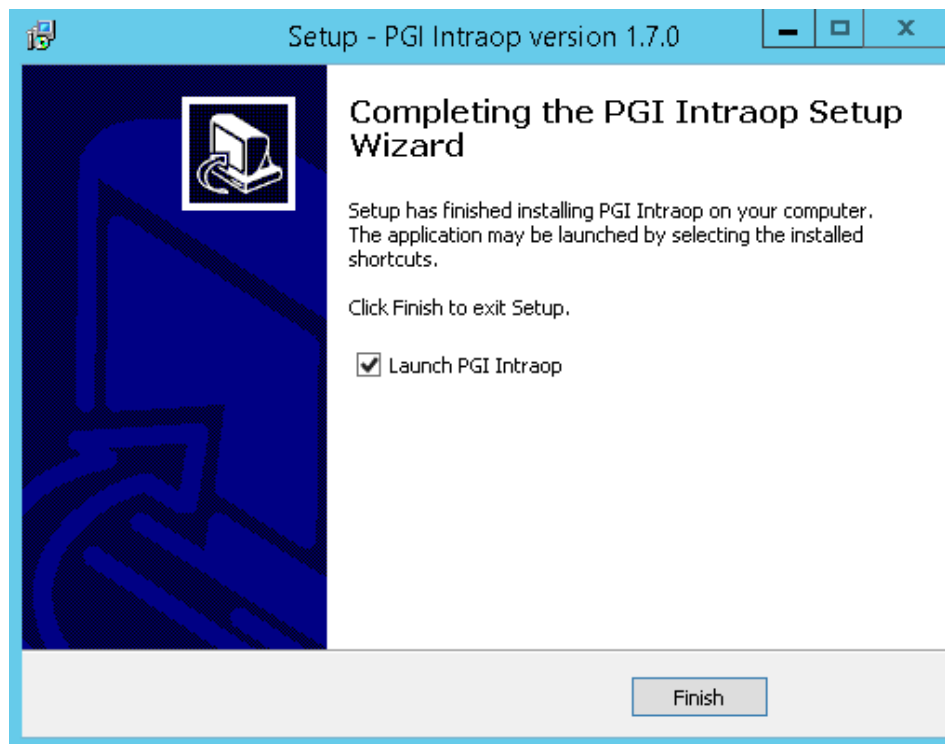

4) Click Install.

5) Installation process will start and create a copy at the specified setup location.

6) Check **Launch** option if you wish to start the application after finishing the installation.

7) A shortcut named "PGI Intraop" is created on the desktop.
